

Air Conditioning & Heating

Fast Track Tech Workshop

Who Should Attend:
*New Maintenance Technicians
and Installation Helpers*

Join us for an exciting two-week workshop.

Fast Track Tech is an expertly-constructed, in-depth training course and the ultimate boot camp for individuals excited to work in the HVAC field. Participants will leave the workshop with a basic set of tools and an excellent working knowledge of the fundamentals of becoming a high-performing maintenance technician or installation helper.

- Attendees study the essential competencies of airflow, electrical, combustion, refrigeration, indoor air quality, and safety.
- 80% of the workshop is taught in the lab so participants can get hands-on training that tests their newly acquired skills with the tools that they will be using in the field.
- Attendees learn critical technician communication skills, flatrate pricing, and how to handle service work orders.
- At the end of the course, attendees will receive their EPA certification and become NATE-certified.*
- Each attendee will receive \$1,000 worth of meters and hand tools.

June 3 - 14, 2019
8 am - 5 pm

*Attendees are required to successfully pass a third-party administered test.

The business toolbox programs are presented by Goodman® and administered by third-party training organizations. All training programs are designed to support independent HVAC contractors who sell Goodman brand products. Any costs for the training programs are determined and charged directly by the third-party training organizations.
